

PELICAN™ AIR 1465EMS
LIGHTWEIGHT EMS CASE

PELICAN™ AIR CASE

1465EMS / 1465

SINCE 1976

HIT THE GROUND RUNNING

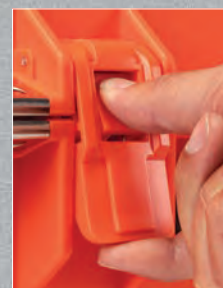

Storage bracket keeps used and sharp objects contained (sharps container and case contents not included).

PELICAN™ AIR 1465EMS: LIGHTWEIGHT EMS CASE

When every second counts, you can depend on the new Pelican™ Air 1465EMS case to keep you moving through harsh terrain. Weighing in at only 13.2 pounds (empty), the Pelican™ Air 1465EMS case minimizes strain while protecting vital medical supplies, without weighing you down.

EASY ACCESS

Press and pull latches have been tested for extreme pressure and impact situations, but are easy to open when you arrive at the emergency.

ORGANIZED FOR SUCCESS

The three tier customizable pullout trays give you the flexibility to organize medical gear to any configuration. And, with three transparent, lockable compartments, controlled substances are easy to view, safely and securely stowed away.

All trays slide forward (for full view) and back to original position

STAY CLEAN

You'll never go soft on your gear again. Medical soft bags or backpacks can get soiled from most jobs. The Pelican Air™ 1465EMS polymer finish and removable trays are easy to wipe down to keep sanitized for the next rescue.

Pelican™ AIR 1465 standard version also available with Pick N Pluck™ foam.

PELICAN AIR 1465EMS AND 1465
