

TWO EASY.

**THE 0500 TRANSPORT CASE.
MAXIMUM PALLET PERFORMANCE.**

It's like taking a short-cut. Transporting two 0500 Cases on a pallet (up to four when stacked) allows you to move large loads in one trip, which cuts down on fuel,

time, and energy. The 0500 is not afraid of heights, the dual integrated automatic pressure equalization valves keep moisture out and prevents vacuum lock. Opening the case at any altitude is not a problem. The double wide grip makes lifting easy. Everything else is standard Pelican tough: watertight, crushproof, and dust proof.

The 0500 Transport Case – it's easy on the pallet.
