

The hazard horizon is bright. With Class I, II, III – Division 1 and IECEx ia Safety Certification, 115 lumens and 75 meters of spot beam distance, the Pelican™ 2315 flashlight stretches light across dark, hazardous environments without being a source of ignition.

Engineered with an aluminum core and ABS overmolded plastic, these flashlights are built for rough handling and can survive hard drops. Plus, the sturdy clip attaches to a work vest for fast access and the tail switch activates raw LED power, even when using heavy-duty work gloves.

Pelican™ 2315 – SEE THE LIGHT AT THE END OF THE TUNNEL

- Class I, II, III – Division 1 / IECEx ia Safety Certified
